17th of September 2023
Kielder Targa Rally sponsored by The Car Barn Beamish
Final Instructions

Thank you for your entry to the first running of The Car Barn Kielder Targa Rally. We were blown away by the response when our entries opened and we really hope you are not disappointed. This is a new challenge for us as organisers and we may not get it right first time, but please support us in making it better for next time.

We must thank Forestry England for their cooperation in organising the event, our local RLO for his advice, The Car Barn for their sponsorship and support, and Hanson Aggregates for the use of Keepersshield Quarry as Rally HQ

As you all know we can not run a rally without the help of volunteer marshals who give up their time, use their vehicles and usually go above and beyond to make the event run safely. Please respect those people as much as we do, and remember to say thank you for marshalling.

Now for the official bits.

These finals are an integral part of the instructions and should be treated as part of the event regulations

1 Start order

Your start number is detailed on the seeded entry list which can be viewed at rallies.info. Cars will start at one minute intervals.

2 Signing on

All competitors need to sign on using the online system, there will not be any signing on at the event. Please visit rallies.info to do this via the link in your entry acceptance. You are required as part of this to upload your licence and club cards. Please do this sooner rather than later.

3 Permits

Motorsport UK Permit No(s): **132240**
Route Authorisation No: TBA

4 Marshals/Judges of Fact

All signed on marshals are judges of fact and their decision is final. Any instances of abuse towards a marshal will not be tolerated and will be reported to the Clerk of the Course, resulting in exclusion.

5 Fuel

There are **NO** fuel stations on the route of the rally, please make sure your car is fuelled up for the whole event before arriving at the start venue.

The nearest fuel is at Hexham - grid reference 87/942 648 or What3words simply.comforted.oils
(You may have time to go for fuel during the lunch break, but we can't guarantee that)

Total mileage for the event is 100 miles, 20 of which are competitive

6 Car preparation and equipment

Please make sure your car is ready for scrutineering, this includes the following points:

- Current MOT (if needed), Tax and V5
- All interior trim present, in line with MSUK road rally regulations
- Spill kit, warning triangle, SOS/OK board, tow rope, first aid kit
- All lights, horn, wipers etc. work
- Tyres are legal for use on the road and within the road rally tyre regulations

All the above points are mandatory, there is no excuse for non-compliance

7 Results

Results will be produced by our own in house results team, they will do their best to display the results at Rally HQ as soon as possible, and we will try to upload them to the Facebook event page when possible.

All results queries should be given to Lynsey Procter (Competitor Liaison Officer) who will investigate any sensible queries. She will be located in various places throughout the day including time card collection points and Rally HQ. If you have signal, you may wish to whatsapp her on 07787 580 208

8 Retirements and recovery

If you are unfortunate enough to retire, please do let us know so that we are not searching for you, please message the Clerk of the Course (Jonathon) on 07929 229 413

If you go off the road and need recovery, please contact the nearest marshal who will assist with getting a recovery vehicle to you as soon as it is safe to do so.

9 Road sections

All road sections are deemed quiet zones, there is no rush between tests or back to rally HQ, please respect other road users and the residents on the route.

The forest roads you use as link sections between tests will still be open to forestry traffic, as well as rally officials. Please drive with care, anyone caught driving in any other manner will be excluded!

10 Rally HQ procedure

Start/Finish venue – Keepersshield Quarry 87/ 895 729 or what3words documents.intrigues.brass

Venues within this part of Northumberland are very limited, Hanson Aggregates have very kindly allowed us to use one of their sites, it is a working quarry and you are required to not touch any quarry equipment.

The site will not be open to competitors until 7:15am on Sunday 17th September, do not attempt to enter the site before this time.

There are layby's at the following locations, please use those if you are early and wait until 7:15. There is no space to wait at the site or any other turning points.

87 / 881 733½

87 / 904 722

87 / 918 707

Space at the site is limited, so please do as you are instructed to by the marshal who will greet you on the quarry road. All tow vehicles, trailers and rally cars need to be fitted onto this site.

There is a site plan attached, please familiarise yourselves with it. The red line is the limit of our access, anyone seen going beyond the red line (red and white tape) will put us in breach of our user agreement and as such you will be excluded. This is a massive safety issue and there is no movement on this matter. The site is covered by CCTV.

Once unloaded please follow the one way system to access scrutineering. Once you are through scrutineering, park up and return to HQ to collect your competitor pack.

There will be a drivers briefing outside Rally HQ at 9:10am (at least one member of each crew must attend)

MTC 1 will be outside Rally HQ, please follow one way system to access this.

Car 0 leaves MTC1 at 9:30am

11 Competitor Packs

Your pack will contain the following items

- Roadbook with test diagrams and road sections
- Time cards x 4
- Food voucher
- Rally plates and numbers

Please stick the rally plates on the front and back of the car, stick the yellow numbers on rear side windows or equivalent location for two seater cars etc.

12 Food Voucher

The food voucher entitles you to £6 worth of food at the catering van located at Rally HQ. You can choose when to use this, morning or lunch time, and you can buy extra items at your own expense.

motorsport diagrams

Are you and your club planning on running an event and in need of clear, accurate and professional diagrams?
Whether you're planning an Autosolo, Targa or Stage rally or need a full OS mapbook, we can help raise your event to the next level and give your competitors the clearest instructions possible.

Please get in touch to discuss your requirements.....
