

Hexham & District Motor Club

MTC 1 -STC 2

C.R.O.

MTC 1 is located at the Carts Bog Inn (Grid reference 818½ 606) From the pub take care joining the A686 turning left. As soon as you have joined the A class road, not forgetting to use your indicator, take the B6305 heading in an easterly direction. Once you arrive at the staggered cross roads after approximatley 0.8 of a mile turn left and then answer **RC1**, which you pass through, just before you arrive at the T-junction with the A686.

Taking care to join the A class road head in a north easterly direction and then head west on a yellow road as you pass Langley Castle. Travel through two 80 degree bends and then turn right onto another yellow road that will wind its way past West Land Ends and then under the A69. Once on the north side of the A69, please answer **RC2**, just before you enter the town of Haydon Bridge.

Once you have entered the town, turn to cross the River South Tyne, then turn to cross a Level Crossing and follow the road running parallel to the rail way line for approximately 500 meters. From here use yellow roads to travel up a steep incline, miss a road on the left, then miss a road on the right. Continue up the hill to a 90 degree left hand bend before arriving at STC 2 as you cross grid line 84. Don't worry, we have written permission from the residents of New Alston to locate the control outside their house.

RC1 What does the blue symbol that you pass signify?

RC2 What does the blue symbol that you pass signify?
